At one point, we had some students who applied to Harvard for admission. When students apply to Harvard, the local Harvard alumni committee has an Education subcommittee. They interview all the applicants for Harvard. Afterwards, the Chair of the committee spoke to me. I was enormously pleased when she said that of all of the high schools in San Diego, Point Loma did the best job of preparing students for college. It was one of the greatest compliments that the whole Point Loma staff has ever received.
